Some know more than others

Prerequisites and Installation

This presentation lists a number of simple instructions that should be done prior to arriving to the workshop.

SISENSE
Some know more than others

List of prerequisites and installations (I)

- Basic statistical knowledge and programming experience
  - It's advised to know the concept of linear regression
  - Also, will not hurt to go through a very basic R introduction coding tutorial online
    http://tryr.codeschool.com/
- Install R most recent version https://cran.r-project.org/bin/windows/base/
- Install Rstudio development environment recent version
  https://www.rstudio.com/products/rstudio/download3/
- Install Sisense if not installed
https://documentation.sisense.com/downloading-and-installing-sisense/
- Establish Connection Sisense To R Server:
  https://support.sisense.com/hc/en-us/articles/230652908-Connecting-Sisense-to-R-Server

SISENSE
Some know more than others

List of prerequisites and installations (2)

- Save the following files into c:/citybike
  - citibike.ecdata
  - NYCConnectTemplate.dash
  - lrmodel.R
  - citibike.csv
  - args
